To Whom It May Concern:

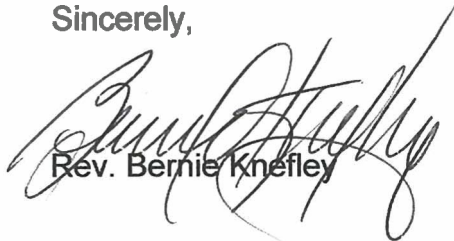

We were privileged to invite Don Sunshine to conduct a MAD Training Seminar at our church. We were not disappointed.

Don was prepared. The information was organized and served up attractively through the use of up-to-date audio/visual technology, with no awkward lulls in the presentation. With that, in addition to his use of humor and clarity, he held the attention of the audience throughout the time allotted. The seminar ended earlier than expected.

Using colorful illustrations and analogies, he effectively brought the message home. Not one could leave that experience without knowing why and how to naturally approach people and lead them to Christ.

Since then, several in our church family have testified with excitement to having used the methods and message to talk to others. I would urge every pastor and church body to take advantage of the MAD training.

Sincerely,

Rev. Bernie Knefley
